8 September 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM: William F. Donnelly  
Director of Communications

SUBJECT: Weekly Report

25X1

4. APARS (Automatic Printing and Reproduction System) hardware and software problems have caused some slowdown in the delivery of traffic to Headquarters components.

25X1

5. A standard computer terminal has successfully accessed computers in the [redacted] Center through the use of the X.25 communications protocol - a form of packet switching. This is a major milestone in a joint OC/ODP project to use X.25 to reduce communication equipment costs and pave the way for MERCURY.
